From your vote to our solution — the cases revisited
(interactive)

13.00 Prof. M. Schimmel / Dr. T. Storesund
Course summary, evaluation & certificates

13.15 **End of course**

Digital planning – please note:

A significant part of this course takes place in coDiagnostiX. Participants are kindly asked to **bring their own laptop** for the hands-on planning sessions. A **one-month coDiagnostiX trial licence** will be provided free of charge in advance, together with detailed installation instructions and technical support in the weeks leading up to the course.

Please ensure that the software is **fully installed and tested on your laptop before arrival**, as course time is dedicated to clinical planning rather than technical set-up.

coDiagnostiX™
